VISUAL ART DIRECTION

USAGE RULES

MARKTN is marketing, just not as you know it.

Our identity reflects how we think: bold, unconventional, and always looking beyond the obvious.

The Official Mark must always come with its Beyond The Brief tagline and the gradient Asterisk.

USAGE RULES

The asterisk is at the heart of it.

Traditionally used to point to something beyond what's written, it represents our belief that the brief is only the starting point.

There's always another angle to explore, an assumption to challenge, and an opportunity to do things differently.

Official Logo - White

The Official Mark must always come with its Beyond The Brief tagline and the gradient Asterisk.

Placed on the K, it draws attention to the unconventional spelling of our name, turning what might seem like a missing piece into our most recognizable symbol.

Because at MARKTN, the brief is where we start, not where we stop.
